

Our Vision

1. We envision a church where the Good News is proclaimed in worship that is alive, clear and thought-provoking.
2. We envision a church where all members are actively connecting the stories, prayers and teachings of our faith with everyday life.
3. We envision a church which equips our individual households to be places of faith.
4. We envision a church which discovers, nurtures, utilizes and celebrates the gifts God has given us in doing the work of Jesus, both inside and outside the church.
5. We envision a church that develops its property and facilities to meet the changing needs of its members and the wider community.
6. We envision a church that stands in solidarity with, and welcomes into its midst, any who are marginalized and who experience injustice.
7. We envision a church that works co-operatively with other ecumenical partners and social networks to achieve justice and peace.
8. We envision a church that is conscious of its use of land, water, and energy, and seeks to reduce, reuse, recycle, and use energy as efficiently as possible.
